Introduction

Let's look at Earth. Let's look at oceans and rivers, mountains and forests. Earth is amazing, and it has lots of amazing places.

Where is it hot on Earth?

Where is it cold on Earth?

Where can we find water on Earth?

Now read and discover more about Earth!

1

What Is Earth?

We're in space and we're looking at Earth. What can we see? We can see many colors. We can see land, water, and clouds.

Earth is a planet. There are many, many planets in space, but there's only one Earth. Earth is our home. Millions of plants, animals, and people live here.

On the land, there are forests, mountains, and deserts. Most of Earth's water is in oceans, but there's water in lakes and rivers, too.

Earth goes around the sun every year. Earth also turns every day.

Go to pages 20–21 for activities.

2

Land

We live on the land. The land is under our feet. The land can be snowy mountains or green valleys. It can be forests or deserts.

These mountains are in China. Next to the mountains, there are valleys. The mountains and valleys on Earth are millions of years old.

Mountains in China

cliff

Cliffs in Australia

The land can fall into the ocean and make cliffs. These amazing cliffs are in Australia.

Rivers can make deep valleys in the land. These deep valleys are called canyons. Look at this amazing canyon in Peru. It's called the Colca Canyon.

The Colca Canyon

Go to pages 22–23 for activities.

3

Water

On Earth, there's water in rivers, lakes, and oceans.

Most rivers come from mountains. Snow falls on the mountains. The snow melts and the water goes down the mountains. Rain falls, then more water goes into the rivers. Most rivers go to the ocean.

When a river comes to a cliff, it makes a waterfall. Niagara Falls are amazing waterfalls in Canada and the USA.

Niagara Falls

A Calm Ocean

When the ocean is calm, the waves are small. People can swim in the ocean when it's calm.

In bad weather, the ocean can be rough. The wind makes big waves. People can't swim in the ocean when it's rough.

A Rough Ocean

Go to pages 24–25 for activities.

4

Hot Places

A lot of hot places on Earth are near the equator. Near the equator, the light from the sun is strong. It's often hot in summer and in winter.

There are many hot deserts near the equator.

A Hot Desert

Monument Valley

Monument Valley is in a desert in the USA. It's very hot and sunny there. There are weeks and months with no rain.

In some very hot places in summer, there's no water in the rivers. Plants and fish can't live there.

When it's hot, the lungfish makes a hole in the soil. It can live there with no water!

5

Cold Places

The Arctic and the Antarctic are very cold places. In the Arctic and the Antarctic, the light from the sun is weak. Winter is very long. It's dark for six months!

In the Arctic, there's lots of deep snow. People can't drive their cars in the snow, so they use sleds and dogs.

In the Arctic

penguin

In the Antarctic

There's lots of snow in the Antarctic, too. Penguins live in the Antarctic. When it's very cold, they stand near their friends, so they are not cold.

In the Arctic and the Antarctic, electricity from the sun makes amazing colors in the sky.

Go to pages 28–29 for activities.

6

Wet Places

Do you like cold, rainy days? In some places, there are lots of rainy days. Rain isn't always cold. Rain often comes with hot weather.

In India, there's lots of rain in hot weather. It's rainy there from June to September. People go everywhere with an umbrella. The rainy time in India is called the monsoon.

In the Monsoon

In a Rainforest

It's very wet in rainforests, too.
It's often hot and rainy. Many
amazing animals and plants live
in rainforests.

This rainforest plant
can eat insects!

→ Go to pages 30–31 for activities.

7

Under the Land

Let's look at the land. What can we see? We can see soil. Plants live in soil and they find water there. Under the soil, there's rock. Rock is millions of years old.

Deep in Earth, the rock is very, very hot. When a volcano erupts, hot rock comes out. People and animals run. They are scared.

A Volcano Erupting

There's water under the land, too.
The water can make caves. You can
see amazing rock in caves.

These caves are in Slovenia. They're
called the Skocjan Caves.

In the Skocjan Caves,
the river goes under the
land for 34 kilometers.

Go to pages 32–33 for activities.

8

In the Ocean

The ocean is an amazing place.
There are millions of fish and plants
in the ocean.

It's dark in the deep ocean.
Some animals make light
so they can see in the dark.

Do you know there are cliffs, mountains, and volcanoes in the ocean? There are long, deep canyons, too. They are called trenches. They are in the ocean floor.

The deep ocean is cold and dark. We can't swim there. We can't see the ocean floor. With new cameras, we can learn more about the deep ocean. Every day we learn new things about Earth.

1

What Is Earth?

← Read pages 4–5.

1 Write the words.

desert river mountain
ocean cloud forest

1 ocean

2 _____

3 _____

4 _____

5 _____

6 _____

2 Circle the correct words.

- 1 Earth is a space / planet.
- 2 There are many planets in space / Earth.
- 3 There's millions / water on Earth.
- 4 Most of Earth's water is in oceans / forests.

3 Complete the sentences.

day goes lakes land one

- 1 There are rivers and lakes on Earth.
- 2 On the _____, there are mountains and deserts.
- 3 Earth turns every _____.
- 4 Earth _____ around the sun every year.
- 5 There's only _____ Earth.

4 Match. Then write the sentences.

On Earth, there's
There's water
Earth is a
Millions of people
Earth

in lakes and rivers.
is our home.
land and water.
live on Earth.
planet.

- 1 On Earth, there's land and water.
- 2 _____
- 3 _____
- 4 _____
- 5 _____

2

Land

← Read pages 6–7.

1 Write the words. Then match.

1 s f c f l i
_____ cliffs

2 a l d n

3 a l y v l e

4 a o y n n c

2 Find and write the words.

mountain millions amazing oceans snowy forest

1 mountain

3 _____

5 _____

2 _____

4 _____

6 _____

3 Circle the correct words.

- 1 We live / ocean on the land.
- 2 The land can be mountains / millions or valleys.
- 3 A mountain / canyon is a deep valley.
- 4 The mountains and valleys on Earth aren't / are very old.
- 5 The land can fall / make into the ocean.

4 Complete the sentences.

- 1 The land is under our feet .
(feet / under / our)
- 2 The land can _____.
(snowy / mountains / be)
- 3 Rivers can _____.
(valleys / deep / make)
- 4 A canyon is _____.
(valley / a / deep)
- 5 There's a _____.
(Peru / in / canyon)
- 6 The mountains on _____.
(old / Earth / are)

3

Water

← Read pages 8–9.

1 Complete the puzzle.

2 Write *true* or *false*.

- 1 There's water in rivers.
- 2 Most rivers come from oceans.
- 3 Rain falls, then more water goes into rivers.
- 4 Most rivers go to the ocean.
- 5 When the ocean is calm, the waves are big.
- 6 People can swim in the ocean when it's rough.

true

3 Complete the sentences.

cliff oceans swim wind

- 1 When a river comes to a _____, it makes a waterfall.
- 2 There's water in rivers, lakes, and _____.
- 3 In bad weather, the _____ makes big waves in the ocean.
- 4 You can't _____ in the ocean when it's rough.

4 Answer the questions.

- 1 Where is there water on Earth?

On Earth, there's water in rivers,
lakes, and oceans.

- 2 Where do most rivers come from?

- 3 Where do most rivers go?

- 4 What does a river make when it comes to a cliff?

4

Hot Places

← Read pages 10–11.

1 Write the words.

equator Earth sun

- 1 _____
- 2 _____
- 3 _____

2 Circle the correct words.

- 1 Near the equator, it's often summer / hot in winter.
- 2 There are many hot deserts / strong near the equator.
- 3 When there's no desert / water, the lungfish lives in a hole.
- 4 Fish can't live in plants / rivers with no water.
- 5 It's very hot and sunny / cold in Monument Valley.

3 Match.

- 1 There are a lot of
- 2 Monument Valley is
- 3 It's hot and
- 4 When it's hot, the
- 5 Near the equator,

the light from the sun is strong.
lungfish makes a hole in the soil.
sunny in Monument Valley.
in the USA.
hot places near the equator.

4 Answer the questions.

1 Where are there a lot of hot places on Earth?

2 Where is Monument Valley?

3 How is the weather in Monument Valley?

4 What does the lungfish do when it's hot?

5

Cold Places

← Read pages 12–13.

dog electricity
penguin sled

1 Write the words.

1 _____

2 _____

3 _____

4 _____

2 Circle the correct words.

- 1 The Arctic is a cold / hot place.
- 2 There's lots of / no snow in the Arctic.
- 3 In the Antarctic, it's hot / dark for six months.
- 4 In the Arctic, people can't / can drive their cars in deep snow.
- 5 Penguins live in the Antarctic / Arctic.
- 6 Penguins stand near their sleds / friends.

3 Complete the sentences.

cold colors snow stand sun winter

- 1 It's very _____ in the Arctic and the Antarctic.
- 2 In the Arctic and the Antarctic, the light from the _____ is weak.
- 3 In the Arctic, the _____ is very deep.
- 4 In the Arctic and the Antarctic, _____ is very long.
- 5 When it's very cold, penguins _____ near their friends.
- 6 Electricity from the sun makes amazing _____ in the sky.

4 Match.

- 1 In the Arctic, people have
- 2 In the Antarctic,
- 3 The Arctic and the Antarctic
- 4 Electricity from the sun makes

amazing colors
in the sky.
there are penguins.
are very cold places.
sleds and dogs.

6 Wet Places

← Read pages 14–15.

1 Write the words. Then match.

1 fajer'sontr

2 sltnap

3 beualrml

4 ncte'ssi

2 Find and write the words.

coldrainyhotweathermonsoonsummer

1 _____

3 _____

5 _____

2 _____

4 _____

6 _____

3 Circle the correct words.

- 1 Rain is / isn't always cold.
- 2 In India, it's rainy / sunny from June to September.
- 3 In India, the rainy time is called the weather / monsoon.
- 4 Rainforests are water / wet places.
- 5 There are flowers in umbrellas / rainforests.
- 6 There are / aren't amazing plants in rainforests.

4 Complete the sentences.

- 1 The monsoon _____.
(rainy / time / the / is)
- 2 It's often hot _____.
(rainforests / in / rainy / and)
- 3 There are amazing _____.
(in / animals / rainforests)
- 4 One rainforest plant _____.
(eat / can / insects)

7

Under the Land

← Read pages 16–17.

1 Complete the puzzle.

1

2

3

4

5

6

2 Write *true* or *false*.

- 1 You can't see soil on the land. _____
- 2 Plants live in soil. _____
- 3 Deep in Earth, the rock is very cold. _____
- 4 Water can make caves. _____
- 5 You can see amazing rock in caves. _____
- 6 There are caves in Slovenia. _____

3 Complete the sentences.

caves find volcano people rock Water

- 1 Plants _____ water in soil.
- 2 The _____ under the land is very old.
- 3 When a _____ erupts, hot rock comes out.
- 4 When a volcano erupts, _____ are scared.
- 5 _____ under the land can make caves.
- 6 You can see amazing rock in _____.

4 Answer the questions.

- 1 What is under the soil?

- 2 How old is rock?

- 3 What comes out when a volcano erupts?

- 4 What can you see in caves?

8 In the Ocean

← Read pages 18–19.

1 Circle the correct words.

- 1 The ocean is an amazing mountain / place.
- 2 There are millions of fish / people in the ocean.
- 3 Some animals / millions live in the deep ocean.
- 4 There are / aren't cliffs and mountains in the ocean.
- 5 It's light / dark in the deep ocean.
- 6 Every day we learn new / old things about Earth.

2 Match.

- 1 There are millions of
- 2 Trenches are
- 3 Some animals
- 4 It's very cold and

long, deep canyons.
dark in the deep
ocean.
plants in the ocean.
make light.

3 Answer the questions.

1 What are trenches?

2 Is it hot or cold in the deep ocean?

4 Complete the puzzle. Find the secret words.

The secret words are:

P _ _ _ _ _

E _ _ _ _

Oxford Read and Discover

Series Editor: Hazel Geatches • CLIL Adviser: John Clegg

Oxford Read and Discover graded readers are at six levels, for students from age 6 and older. They cover many topics within three subject areas, and support English across the curriculum, or Content and Language Integrated Learning (CLIL).

Available for each reader:

- Audio CD Pack (book & audio CD)
- Activity Book

Teaching notes & CLIL guidance: www.oup.com/elt/teacher/readanddiscover

Subject Area Level	The World of Science & Technology	The Natural World	The World of Arts & Social Studies
1 300 headwords	• Eyes • Fruit • Trees • Wheels	• At the Beach • Camouflage • In the Sky • Young Animals	• Art • Schools
2 450 headwords	• Electricity • Plastic • Sunny and Rainy • Your Body	• Earth • Farms • In the Mountains • Wild Cats	• Cities • Jobs
3 600 headwords	• How We Make Products • Sound and Music • Super Structures • Your Five Senses	• Amazing Minibeasts • Animals in the Air • Life in Rainforests • Wonderful Water	• Festivals Around the World • Free Time Around the World
